

TSB787CA | Targus 15.6" Transpire Backpack

Function meets comfort and style. Targus 15.6" Transpire backpack blends all three elements into a backpack that anyone can carry without the weight and the bulk.

Materials and texture blend together to create a stylish backpack. For your comfort, the back panel is padded and the shoulder straps are adjustable and padded.

Featuring a padded laptop compartment with separate document storage including a workstation with pockets, pen loops and a key clip. For added convenience, the backpack has two mesh side pockets for water bottles and small accessories. The front zippered pocket allows more storage for power and other essentials

To protect against the elements, the backpack is made of durable polyester and features a wear and weather resistant base for added protection.

Dedicated padded laptop compartment; Separate document storage including a workstation with organized accessories compartments; Front zippered pocket for storing accessories; Two mesh side water bottle holders; Adjustable, padded shoulder straps; Padded back panel; Carrying handle; Wear- and water-resistant bottom
